

Nanoleaf Shapes

Hexagons | Reviewer Kit

Welcome to Smarter Living

Congratulations on becoming an official owner of the Nanoleaf Shapes - Hexagons. Remember, you can grow your setup with Expansion Packs to unleash your creativity to the fullest. Thank you for your support, you brighten our day like Nanoleaf brightens the world!

Our Inspiration

[WATCH VIDEO](#)

The Shapes Hexagons invite technology into our lives with Smart Decor that embraces the highest artform there is – life and nature itself – helping to simultaneously light up our homes and our minds. Walking through your home, you will feel the natural illumination of color and light wash over your space. Experience the enigmatic wonders of the coral reef or transport yourself to a breathtaking scene of cherry blossoms in Japan.

Using Nanoleaf's exclusive Connect+ Technology, all of the products within the Shapes Line – Hexagons, Triangles and Mini Triangles – work together, allowing you to create true lighting mosaics. Just like in nature, we want to embrace different forms and factors coming together to unite as one central piece of artwork. The combination of smart technology and warm design of the Shapes Hexagons opens up limitless possibilities for you to explore, play, and create.

Reviewer Kit

Tips for Photo & Video

Dim Your Light Panels

The Hexagons look amazing at full brightness, but this often doesn't translate well on camera. Dim them down to about half brightness to capture them at their best.

Controller

Hold down the Dim (-) button on the controller to manually dim down the lights.

Nanoleaf App

Go into the Dashboard and control brightness using the slider.

Voice Control

Say "Set my lights to 50% brightness" to magically adjust. Works with Apple HomeKit, Google Assistant, Amazon Alexa, and SmartThings.

AR for Your Design

Layout Assistant

Use the Nanoleaf App's 'Layout Assistant' to see how your Hexagons look on your wall before installing them. Go to More > Layout Assistant
