

Nanoleaf Shapes

Triangles & Mini Triangles | **Reviewer Kit**

Welcome to Smarter Living

Congratulations on becoming an official owner of the Nanoleaf Shapes - Hexagons. Remember, you can grow your setup with Expansion Packs to unleash your creativity to the fullest. Thank you for your support, you brighten our day like Nanoleaf brightens the world!

Our Inspiration

Nanoleaf Shapes offers the most personal form of lighting yet. Building on the creative foundation of our original Light Panels, we wanted to make a product that truly has no limits. Seeing all of the amazing designs from our community, we knew that there was a desire to design and create in a way that pushed the boundaries like never before - so we wanted to offer just that. A line of products that would never limit your creative exploration but instead offer an unending amount of potential.

Using Nanoleaf's exclusive Connect+ Technology, all of the products within the Shapes Line - Hexagons, Triangles and Mini Triangles - work together, allowing you to create true lighting mosaics. Enjoy unlimited design possibilities by connecting multiples of one shape, or mixing and matching different shapes in brand new ways. The combination of smart technology and even smarter design of Nanoleaf Shapes opens up limitless possibilities for you to explore, play, and create.

Reviewer Kit

Photography & Videography Tips

Dim Your Light Panels

The Shapes look amazing at full brightness, but this often doesn't translate well on camera. Dim them down to about half brightness to capture them at their best.

Controller

Hold down the Dim (-) button on the controller to manually dim down the lights.

Nanoleaf App

Go into the Dashboard and control brightness using the slider

Voice Control

Say "Set my lights to 50% brightness" to magically adjust. Works with Apple HomeKit, Google Assistant, Amazon Alexa, and SmartThings.

AR for Your Design

Layout Assistant

Use the Nanoleaf App's 'Layout Assistant' to see how your Hexagons look on your wall before installing them. Go to More > Layout Assistant
